PAYCLOCK ONLINE TIME & ATTENDANCE SYSTEM

Freedom & Flexibility: A winning combination.

PayClock Online provides you **freedom** in access by releasing you from being tied to one PC & allowing you to manage employee timecards, edits, calculations and reports in real-time via the web, even for employees that work in multiple sites, including at home.

"You don't have to worry about computer crashes and losing data. I can go to any computer, anytime, and pull all the information. It's accessible from anywhere!"

Rachel D.
Barbara / Jean, Ltd.

"I love that I can access it from anywhere even from my phone! I have four time clocks linked to PayClock giving me easy access to all of my locations."

FASTER PAYROLL PROCESSING FROM ANYWHERE

Faster error resolution means easier payroll processing

Quickly find errors and make adjustments. When preparing payroll, big & often expensive delays happen when you must correct missed employee punches and verify missing

timecard information. With PayClock Online, you can eliminate delays by setting up employee managers and other multi-users with custom log-ins and permissions providing them with the ability to review employee timecards and quickly make corrections to mistakes as they happen.

PayClock Online's **Exception Finder** feature lets you easily identify and address employee timecard errors and missing information effectively eliminating the need to track down employees or managers to verify punches.

"I'm able to edit employee punches and payroll requests in advance having records easily accessible whether I am at my desk or out of the office.

PayClock Online makes it much more efficient on payroll day, cutting payroll processing time in half."

MOBILITY FOR EVERYONE!

Employees that work away from the office can leverage the free mobile app to track their time by clocking in and out remotely with their smart

You get mobile smartphone apps for employees, managers and admins for no additional charge

phones or web enabled mobile device. Employees can also view their personal timecard information and benefit time whenever they want with any internet connected device.

Additionally, PayClock Online gives supervisors and administrators the power to view their employee time cards, make edits, send messages, view totals and select reports at their convenience from any location on a smartphone or tablet via a web connection.

“The time clock system works great for employees that are remote. They can use the PayClock mobile app to clock in and out showing their GPS location. We know they are on the job when they clock in.”

EASILY MANAGE EMPLOYEE TIME OFF REQUESTS

Quickly view balances of benefit time and non-work history

You save time preparing payroll because the correct PTO payroll codes are automatically applied and calculated for each employee within the payroll period.

With the mobile app that comes with PayClock, employees can see their accrued paid time off (PTO) balances. They can make time off requests from the app directly to their supervisor.

Managers review and approve / deny employee time-off requests and then send employees email messages.
