TIME & ATTENDANCE SOFTWARE

Online Software

PayClock Online. Cloud Base Time Clock Software

Now you can manage employee time and attendance from anytime and anywhere. All you need is a web browser and an internet connection to capture, edit and seamlessly integrate your workforce time and attendance data into payroll systems such as ADP, QuickBooks, Paychex, etc. Imagine the possibilities. Lathem's cloud based time and attendance software allows you to manage employee time sheets, calculate labor hour totals and export for payroll processing while out of the office, at home, business travel or even on vacation! You can give employees options to clock in/out using Lathem automated time clocks and record punches on mobile devices using the included PayClock app. Employees and supervisors can have on-demand access to view time sheet info; current in / out status; total hours; benefit time; as well as send and approve time off requests and much more!

NEW!

Anytime. Anywhere.

PayClock Online

Never any software to install or maintain. Runs on Lathem servers in the cloud.
Data is secured and backed up daily by Lathem.

Touch Screen Time Clock System

Full color, touch screen time! The Lathem PC700 is a new time clock for a new work force. It's a wall mounted touch screen employee time clock that utilizes WiFi or Ethernet to connect to our PayClock Online time and attendance software. Employees use proximity badges or PIN to punch in and out and data transfers instantly to the web. Using the touch screen display, they can indicate department transfers, enter tip amounts, view their total hours and paid time off information. The PC700 works exclusively with PayClock Online offering secure anywhere, anytime editing, reporting and exporting to payroll.

NEW!

PayClock Online

A Model PC700

Touch Screen Cloud-Based Time & Attendance System

- Built-in WiFi for connecting to online employee time & attendance software.
- Employees use proximity badges or full color touch screen for PIN entry.
- Allows department transfers, tip entry, viewing hours, and punch editing.
- **Requires subscription to PayClock Online** web-based time and attendance.
- Export data to ADP, Paychex, QuickBooks and more!
- Allows for custom greetings/messages to employees on the clock's display.
- Includes a built-in dry contact relay for optional door access control.
- Option for bell ringer signaling.
- Includes touch screen terminal, 15 badges, and Ethernet cable.
- Includes lithium battery backup to store employee punch data and settings.
- Size: 8"H x 4.75"W x 1.5"D 1.4lbs. (complete kit) Silver & Charcoal Gray

AUTOMATED SYSTEMS

Cloud Based Touch Screen

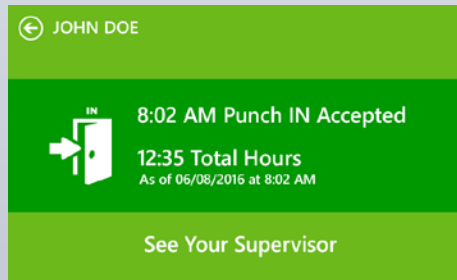

CloudTouch Time Clock System

Now you can easily record and manage employee time and attendance with the touch of a finger. Lathem's new CloudTouch time clocks have a modern 7" LCD touch screen interface that allows employees' to clock in & out, check their totals, change departments, add amounts, and more. Choose the CloudTouch time clock model that captures your employees time with a state-of-the-art biometric fingerprint sensor or proximity badge card reader. CloudTouch time clocks have built in WiFi, so data is sent in real time to Lathem's PayClock Online time & attendance cloud-based software, where you can access and manage employee time card info at anytime, anywhere, via your secure web portal account.

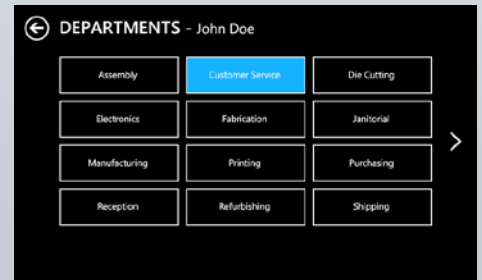

PIN Entry

You decide which employees and supervisors can use a unique PIN number in lieu of, or as a back up to, badges or biometric identification.

Employee Hours

The punch confirmation screen shows the employee the time they punched in/out, their total worked hours for that period and even messages from their supervisor.

Transfer Depts

Employees can easily choose from a customizable list of departments that automatically set the proper hourly pay rate.

A Models CT70, CT72 & CT74

CloudTouch Time Clocks

- All CloudTouch time clocks have a 7" Touch Screen LCD Display & RFID Card Reader.
- CloudTouch time clocks work seamlessly with Lathem's PayClock® Online employee time & attendance software.
- Using WiFi or Ethernet, CT clocks instantly deliver employee data to PayClock Online.
- The **CT72** adds a fingerprint reader in addition to the Touch Screen and Card Reader.
- The **CT74** adds two infrared cameras and three dimensional face recognition technology in addition to the Touch Screen and Card reader.
- **Requires subscription to PayClock Online** web-based time and attendance.
- CT70 & CT72 Size: 9" W x 2.6" D x 6" H 1.9lbs. Plastic & Stainless steel.
- CT74 Size: 9" W x 4.3" D x 6.3" H 2.1lbs. Plastic & Stainless steel.

Face Recognition Time Clock and Access Control System

FacelN® biometric time clock system is a complete time and attendance solution that uses contactless optical face recognition technology to instantly identify employees. FacelN time clocks provide a touchless, more hygienic alternative to other biometric systems, while eliminating "buddy punching" and the need for cards and badges. Employees simply look at the clock and within seconds they are identified and clocked in for work. FacelN uses a standard Ethernet connection to your existing computer network. The FacelN model FR700 also includes a built-in dry contact relay providing optional secure door access control to admit employees into secure interior locations. The system includes the PayClock Desktop employee time & attendance software but FacelN face recognition time clocks are also compatible to work with PayClock Online.

PayClock Online

A Models FR650 & FR700

Face Recognition System

- Uses fool proof face recognition technology to instantly identify employees.
- Provides contactless hygienic alternative to fingerprint readers.
- Eliminates "buddy punching" and the need for cards and badges.
- Uses a standard Ethernet connection to your existing computer network.
- Supports 100 employees but can be easily expanded to up to 500 per device.
- **FR700 includes a built-in dry contact relay** for optional physical access control.
- Includes powerful desktop software for editing, running reports and exporting to most popular payroll software including QuickBooks..
- Size: 7.8" W x 3.7" D x 4.5" H 1.1lbs. Stainless steel.

ELECTRONIC Top Feed Time Clock

Top-Feed Basic Electronic Time Clock

The Model 400E provides accurate timekeeping for employees without making the clock-in and clock-out process complicated or difficult. The 400E supports any pay period and records the month, date, day of the week, and time with every punch. Most time clocks only provide the date or the day of the week, not both. With SmartClock technology, supervisors will never need to adjust the time or date due to power outage, Leap Year, or Daylight Savings Time. The 400E requires Lathem E14 time cards.

Atomic Electronic Time Clock & Stamp

The 1600E synchronizes time to the US Atomic Clock providing the most precise and accurate time. The Tru-Align™ setting provides fast printing and perfect punch alignment. The 1600E is truly automatic as it never needs resetting because it automatically changes year, month and date with perpetual calendar until Year 2099. Even changes time automatically for Daylight Savings Time. As a time clock, the 1600E records employees' in and out times for payroll accounting. As a job clock it can track project time for accurate costing. And as a document stamp, the 1600E can print the date, time and preset messages on important documents.

A Model 1600E **F** **S** Atomic Electronic Time Clock & Document Stamp

- Synchronizes time to the Atomic Clock.
- Bright LED light illuminates print area for easy viewing.
- Tru-Align™ option provides fast printing and perfect punch alignment.
- Automatically adjusts for Daylight Savings Time.
- Never needs resetting, keeps time during power outages.
- Print time in AM/PM or 24 hour format.
- Over 200 custom print formats.
- Size: 5.7"H x 6.3"W x 7.2"D 4.4lbs. Charcoal.
